

Microsoft Wireless Laser Desktop 6000

September 2008

Fact Sheet

What:

Microsoft Corp.'s new Wireless Laser Desktop 6000 delivers top-of-the-line performance and comfort in an elegant design. Inspired by Windows Aero, this sleek keyboard features a smoked translucent border, My Favorites Keys, Media Center controls and an ultrathin Comfort Curve layout. The included mouse, the Wireless Laser Mouse 6000, features a snap-in transceiver with the full-size mouse, combining comfort with mobility.

Format:

Microsoft Wireless Laser Desktop 6000 operates on PC and Macintosh platforms and uses a Universal Serial Bus (USB) connection. The included keyboard and mouse software is necessary for full functionality.

Features And Benefits:

Wireless Keyboard 6000

- **Smoked translucent border** brings the elegance of Windows Aero to the keyboard.
- **2.4GHz wireless technology** gives consumers a confident wireless connection and a range of up to 30 feet, even in crowded wireless environments.
- **Comfort Curve keyboard design** delivers more comfort in an easy-to-use keyboard layout. With a slight 6-degree curve, it encourages a more natural position and is very approachable.
- **Amazingly sleek, compact design** complements any living room or office décor and features quiet touch keys.
- **Battery life indicator** shows two colors: green when the batteries have sufficient power and red when the batteries are running low and need to be replaced.

- **One-touch access to Windows Flip 3D** allows users to flip through open windows in a stack and quickly switch among applications for added productivity.¹
- **Media Center controls** allow users to access popular media activities with one touch, such as play, pause and volume.
- **With one click, the Windows Start Button** pulls up the Windows Start menu to allow users to search for or launch documents. If users have Windows Vista installed, they can search their PC or the Web directly from the Windows Vista Start menu.
- **My Favorites Keys** deliver one-touch access to users' most-used Web sites, files and folders. Users simply push and hold a key to assign it to the current destination, just as they would with a car stereo's preset buttons.
- **Zoom** allows users to easily zoom in to and out of digital pictures, maps and more.

Microsoft Wireless Laser Mouse 6000

- **Snap-in transceiver** offers users the portability of a notebook mouse with the comfort of a full-size mouse, for use on the desk and on the go. When stowed, the transceiver turns off the mouse to conserve battery life.
- **2.4GHz wireless technology** gives consumers a confident wireless connection and a range of up to 30 feet, even in crowded wireless environments.
- **Proprietary High Definition Laser Technology** features the exclusive Microsoft Intelligent Tracking System for smoother tracking, 1,000 dots per inch for more responsiveness, and 6,000 frames per second for better precision.
- **Battery life indicator** shows two colors: green when the batteries have sufficient power and red when the batteries are running low.
- **One-touch access to Windows Flip 3D** allows users to flip through open windows in a stack and quickly switch among applications for added productivity.¹
- **Tilt Wheel and Magnifier** let users activate key computer commands and movements with a single touch.

System

Requirements:

To use the Microsoft Wireless Laser Desktop 6000, consumers should install the included keyboard and mouse software for full functionality of all features. Users also need the following:

For a Windows-based PC:

- A PC that meets the requirements for and has installed the Windows Vista or Windows XP operating system
- 100 MB of available hard drive space
- CD-ROM drive
- An available USB port
- Internet access for certain features

For Macintosh:

- Mac OS X v10.2x–10.5x
- 30 MB of available hard drive space
- CD-ROM drive
- An available USB port
- Internet access for certain features

A current list of programs supported for use with Microsoft keyboards and the Zoom feature can be found at <http://www.microsoft.com/hardware/mouseandkeyboard/default.mspx>.

**Availability
And Pricing:**

The Microsoft Wireless Laser Desktop 6000 will be available in September for an estimated retail price of \$99.95 (U.S.).² The Wireless Laser Desktop 6000 is backed worldwide by a three-year limited hardware warranty from Microsoft. The Wireless Laser Desktop 6000 is now available for special pre-sale on Amazon.com and will ship later this month when the product is widely released.
