

Microsoft Wireless Mouse 5000

Fact Sheet **May 2009**

What:

The Microsoft Wireless Mouse 5000 features Microsoft BlueTrack Technology — the world's most advanced tracking technology — that allows consumers to take their mouse anywhere and work with confidence on virtually any surface.¹ Microsoft's proprietary tracking technology combines the width and power of optical technology with the precision of laser tracking to allow consumers to mouse on virtually any surface, from a granite kitchen countertop to the living room carpet.¹

The Wireless Mouse 5000 offers full-sized comfort in either hand with an ambidextrous design and rubber side grips. The mouse also features 2.4GHz wireless technology and a snap-in minitransceiver for a reliable wireless connection from up to 30 feet away.

Format:

The Wireless Mouse 5000 operates on the Windows Vista, Windows XP and Macintosh operating systems and connects to a Universal Serial Bus (USB) port.

Features

And Benefits:

- **BlueTrack Technology is the world's most advanced tracking technology**, working on more surfaces than optical and laser,² including granite, marble, carpet and wood.¹
- **Comfortable, ambidextrous design** offers rubber side grips and full-sized comfort for use in either hand.

- **2.4GHz wireless technology** gives consumers a confident wireless connection and a range of up to 30 feet, even in crowded wireless environments.
- **Two AA batteries** provide up to eight months of battery life for extended use.
- **Snap-in transceiver** offers consumers the portability of a notebook mouse with the comfort of a full-size mouse, for use on the desk and on the go. When stowed, the transceiver turns off the mouse to conserve battery life.
- **Two-color battery life indicator** warns consumers when it is time to replace the batteries.
- **One-touch access to Windows Flip 3D** allows consumers to flip through open windows in a stack and quickly switch among applications for added productivity.³
- **Tilt Wheel and Magnifier tool** let consumers activate key computer commands and movements with a single touch.

System

Requirements:

To use the Wireless Mouse 5000, consumers need the following:

For a Windows-based PC:

- A PC that meets the requirements for and has installed the Windows Vista or Windows XP operating system
- 100 MB of available hard drive space
- CD-ROM drive
- An available USB port
- Internet access for certain features

For Macintosh:

- Mac OS X 10.2x–10.5x
- 30 MB of available hard drive space
- CD-ROM drive
- An available USB port
- Internet access for certain features

**Availability
And Pricing:** Microsoft Wireless Mouse 5000 will be available in June 2009 for an estimated retail price of \$39.95 (U.S.).³

The Wireless Mouse 5000 is backed by a worldwide three-year limited hardware warranty. The limited warranty and license agreement are available at <http://www.microsoft.com/hardware/warranty>.

¹ BlueTrack Technology does not work on clear glass or mirrored surfaces.

² Compared to leading laser and optical mice commercially available spring 2008.

³ Windows Flip 3D button functions as an Instant Viewer tool when used with Windows XP.

⁴ Actual retail prices may vary.
