

MEET YOURS

Windows[®] Phone

Your phone should be just that – YOURS

Windows Phone lets you pin the people, apps and stuff you care about to your Start screen so your phone comes alive with the information that matters to you. Live Tiles show you everything as it happens – from the location of your next appointment to new tweets, status updates and profile pics from your friends.

Now available in a variety of colors, Windows Phone makes a statement with fiery red, bright yellow or eye-catching blue. Whether you're a music lover, sports enthusiast, multitasking parent or foodie, your Windows Phone is a reflection of who you are and what you love. It's the most personal smartphone experience out there.

Meet your new Windows Phone 8.

Meet Jen: Fearless Foodie

"You are
WHAT YOU pin."

Windows Phone lets you pin what matters most – maybe it's your favorite recipe or photos of an unforgettable meal – and arrange your Start screen just how you like it.

Nokia Lumia 920 Windows Phone, available on AT&T

Let the hunger games begin. Snap and share crisp foodie photos with PureView on the Nokia Lumia 920 – even in low restaurant lighting. And with Windows Phone's built-in Lenses you can add the perfect filter – no apps required.

MEET JEREMY: Born to Run

// BE IN THE
know. //

Windows Phone is the only phone with Live Tiles that come alive with information that's important to you. From Facebook photos of your marathon to the latest email from your running group or the score of the football game, you'll never miss a beat.

Windows Phone 8X by HTC, available on AT&T, T-Mobile USA and Verizon

MEET LEXI: THE JETSETTER

// THE apps YOU
LOVE ARE NOW
alive. //

Live Apps on Windows Phone put the information you want right on your Start screen, like your most up-to-date flight information on Delta Airlines, or breaking news on CNN. You never have to search for what's important to you – at home or on the road.

Nokia Lumia 820 Windows Phone,
available on AT&T

Headed out on a wintery vacay? Stay cozy with the Nokia Lumia 820 – the touch screen is so sensitive that you can use it with gloves on.

MEET LUCY:

star second grader

"KID-PROOFING THAT'S kid-approved."

Hand over your phone worry-free. Kid's Corner is like having a phone-within-a-phone that gives your little ones access to only the apps and games you choose for them. So you can let them play Angry Birds without worrying about them accidentally emailing your angry boss.

Nokia Lumia 920 Windows Phone, available on AT&T

Meet Miles: The Entrepreneur

Take your work on-the-go thanks to SkyDrive and Office Mobile for Windows Phone. All your Word, Excel, PowerPoint documents and OneNote notebooks are accessible from anywhere – and right where you left off.

// **YOUR**
virtual office. //

Nokia Lumia 810 Windows Phone,
available on T-Mobile USA

MEET MARCUS:

music man

**"NEVER SKIP
a beat."**

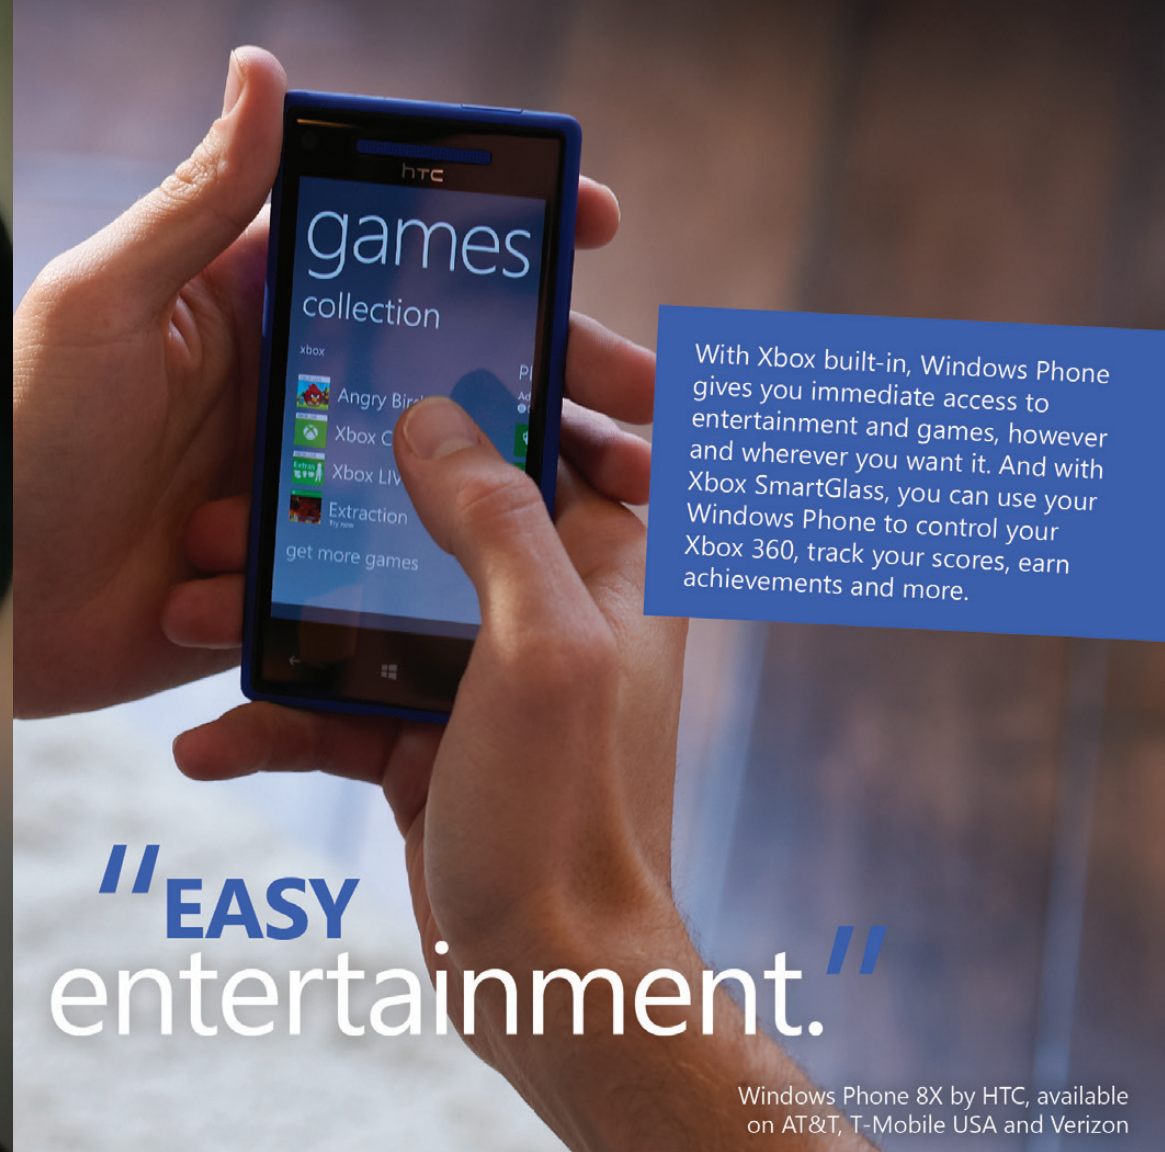

With Xbox Music on Windows Phone, your music is available wherever you are. Create a playlist on your PC and find it on your Windows Phone, Windows tablet or Surface. And get unlimited streaming of millions of songs with an Xbox Music Pass.

Windows Phone 8X by HTC, available
on AT&T, T-Mobile USA and Verizon

The exclusive built-in amplifier for Beats Audio on the Windows Phone 8X by HTC brings you that much closer to the music.

Meet Andy: Entertainment Junkie

With Xbox built-in, Windows Phone gives you immediate access to entertainment and games, however and wherever you want it. And with Xbox SmartGlass, you can use your Windows Phone to control your Xbox 360, track your scores, earn achievements and more.

//EASY
entertainment.**//**

Windows Phone 8X by HTC, available on AT&T, T-Mobile USA and Verizon

MEET LISA: proud parent

//share
WITH YOUR
INNER circle.//

Only Windows Phone allows you to create Rooms, an intimate virtual space where you can easily chat and share photos, messages, calendars and notes with a hand selected group of people.

Windows Phone 8X by HTC, available
on AT&T, T-Mobile USA and Verizon

Getting together with friends? Snap a photo of the whole gang using the ultra-wide angle front-facing camera on the Windows Phone 8X by HTC – and then share with the group with Rooms.
