

Eran Megiddo

Corporate Vice President, Microsoft Education

Eran currently leads Microsoft's cross-company product strategy for the education market, helping to bring Microsoft's best technology to students and teachers around the world. In addition to this cross-company responsibility, he leads the teams building OneNote, the leader in the digital note taking and capture space; To-Do, the creator of the highly acclaimed to-do list app; Intentional Software, a platform for a new generation of team productivity apps and Microsoft's Education Product Group, building classroom and learning tools for teachers and students.

Prior to his current role, Eran led the Excel, PowerPoint, Visio and Business Intelligence teams in Office.

Before joining Microsoft, Eran was Founder & CTO of Maximal Innovative Intelligence from July 1998 until Jun 2001. He was Principal at Memad Educational Systems in Israel from Oct 1997 until Oct 1998 and was an IDF Officer from 1990 until 1998.
