According to a World Economic Forum report, creativity is one of the top three skills individuals will need to be successful in the new, digital world. Creative thinking helps one find new ways of solving problems by having an open and flexible mindset.

Researchers have also found that it takes at least 21 days to cultivate a habit. So, if you’re game to make creativity a habit, let us help you with these 21 ideas - all you need is a Windows device to get started!
